As part of the city's \$355 million Restore Biloxi Infrastructure Repair Program, a major sewer, water and storm drainage improvements project is coming to your area. We want you to know about potential impacts to your neighborhood.

The construction will take place on John Adams, William Harrison, James Madison, Thomas Jefferson, Rodenberg, Hollywood, Vine, Sunset, Wiltshire, Rodeo and along St. Ann. The project will include replacing water mains, sanitary sewer lines and storm drains as well as replacing the streets, curbs and sidewalks affected by the construction work. One sewer pump station on Rodeo Drive will be removed from service.

The work will begin in late April 2012 and is scheduled to be completed 365 days later. Some lane closures will be required over the course of the work as well as periodic short-term interruptions in water service.

However, we will work to inform you about these in advance. You may see heavy equipment using the streets in and near the construction zones. Any traffic detours will be clearly marked.

You can learn more about this project at an informational meeting scheduled for Thursday, April 12 at 6 p.m., at Jeff Davis Elementary School, 340 St. Mary Blvd. Staff will be on hand to answer any questions you might have.

Once work begins, if you have any questions or issues regarding the project, the contractor for this work is Rockdale Pipeline Inc., (228) 864-8315. Rockdale's Project Manager is Tony Morrow (678) 878-8710. The Field Superintendent for Rockdale is Mark Pruitt (256) 572-4172.

Please understand that when a city undertakes large improvement projects such as this, temporary inconveniences are unavoidable. We will provide you as much information as possible so that you can plan accordingly.

Sincerely,
