

## **Advanced Disposal is pleased to be Harrison County's new residential solid waste services provider.**

**Effective October 1, 2007**

At Advanced Disposal, we are driven by a need to do things better, creating better environments for all of us. We are pleased to now offer Harrison County a clear, clean difference in waste disposal services... because a cleaner environment means a brighter future for individuals, businesses and governments alike.

### **What does this mean to residents of Harrison County?**

Most of all: While your collection company will change to Advanced Disposal, your collection days will remain the same — easy, convenient and consistent.

### **When does Advanced Disposal's service begin?**

Monday, October 1, 2007  
(or your first pickup day after that).  
Be sure to place carts curbside by 6:00am.

### **What about cart service?**

Beginning September 4th, your old cart will be collected and replaced with a new 95-gallon cart for your solid waste collection. Your current service provider will service the carts through September.

PLEASE NOTE: Inside your new cart, you will also find a new 18-gallon recycling bin. Please remove the recycling bin immediately and use for recycling.

## **Remember: All collection days remain the same!**

Advanced Disposal also offers a full range of business and industrial waste solutions. For more information, call (228) 328-1820 or visit us at [www.advanceddisposal.com](http://www.advanceddisposal.com)

Service provided through Harrison County Utility Authority Solid Waste Collection Services.
