

# Biloxi House Fair

Sponsored by: Architecture for Humanity

[www.architectureforhumanity.org/programs/modelhomes/](http://www.architectureforhumanity.org/programs/modelhomes/)

To help mark the progress made in bringing families home to Biloxi, Architecture for Humanity is partnering with the Biloxi Relief, Recovery and Revitalization Center, the Salvation Army and a number of volunteer groups working in the area to host a House Tour and Architecture Fair.

The house tour will showcase just a few of the many beautiful homes that have been reconstructed with the help of volunteer groups from around the country who have so generously spent the last year helping families get back on their feet. The house tour will start at the Salvation Army HQ (Yankie Stadium).

In addition, Architecture for Humanity has invited a dozen nationally recognized architecture firms to showcase home designs created to address the specific needs of East Biloxi. Each firm will host a booth at the Salvation Army HQ. Residents and others are invited to share their ideas, ask questions and speak directly with the architects about their housing needs. Volunteer architects will also host Design Your Dream Home workshops for kids from 11am to 1pm.

All are welcome. Come share in the food, fun and good design.
