The city's \$355 million Restore Biloxi Infrastructure Repair Program, part of the recovery from Hurricane Katrina, is a major sewer, water and storm drain improvements project, and it is coming to your area. We want to help make you aware of potential impacts to your neighborhood.

The EPT1 (Eagle Point) project construction, valued at more than \$11 million, will take place generally in the Eagle Point Subdivision, along Shorecrest Road, South River Drive, Pin Oak Drive, and Riviere Vue Drive. The project will include replacing water mains, sanitary sewer lines and storm drains as well as replacing the streets, curbs and sidewalks impacted by the construction work. As part of this project, the sewer pump stations at South River Drive and East Shorecrest will be completely reconstructed.

The work will begin early January 2014 and is scheduled to be completed 545 days later, mid-summer 2015. Some lane closures will be required over the course of the work as well as periodic short-term interruptions to water service. However, we will work to inform you about each of these in advance. You may see heavy equipment using the streets in and near construction zones. Any traffic detours will be clearly marked.

A community meeting to discuss the EPT1 project will be held on Thursday, Dec. 12, 2013 at 6 p.m. at the Joppa Shrine Center, 13280 Shriners Blvd. Representatives from the city, HNTB (the program manager), and Lane Construction (the contractor) will be on hand to answer any questions you might have. Please try and attend this informational meeting.

Here are contact numbers for you to keep handy should any issues arise during the course of the project.
