

# Storm & Flood Preparedness

2008

INFORMATION TO HELP YOU MINIMIZE RISK TO LIFE AND PROPERTY

## 'Nothing will be as bad as Camille'

My fellow Biloxians:

The untiring drive and steadfast determination of the people of Biloxi have characterized the Katrina rebuilding effort in our community.

Over the past 34 months, we've witnessed countless instances where volunteers have come to our aid and have marveled at the resilience of our people, the can-do spirit and the positive attitudes they've encountered.

It makes me proud to be your mayor. I've known all along that the people are what make Biloxi such a cherished place.

However, as we enter the 2008 hurricane season, as we move toward the three-year mark, I share the concerns of our Emergency Management authorities.

Sure, the scars still remain, the vacant lots stand as a testament to how

much we lost and how far we still have to go.

But as the painfully slow rebuilding process progresses, and it is progressing, and as we grow accustomed to the increasing amount of road work and construction, I worry that we'll see a repeat of the fatalistic attitudes that some of our long-time residents, the Camille veterans, had come to embrace in the years since that night in August 1969.

"I survived Camille, and nothing's going to be as bad as that."

"The water from Camille didn't reach my home, so I'll be OK."

The fact is, we must remember that it may not be another 35 years before we face another Katrina.

The fact is, any storm – regardless of whether it's a severe thundershower or a Category 1 hurricane – has the potential to cause flooding and wind damage. You must not take this threat lightly.

One of the most important and most basic responsibilities of your city government is maintaining your safety and welfare. This is not limited to having excellent fire and police departments.

It's a matter of providing you information on how you can protect yourselves and minimize the damage from storms and flooding.

The message today is simple: You must prepare a storm plan for your family and businesses. You must have a storm kit. You must be prepared.

You must avoid becoming complacent or overconfident, and you must avoid minimizing the threat.

This Storm & Flood Preparedness guide has the information you need to prepare yourself and your family. I ask that you heed the advice and take action.

These volunteers have been impressed with what they've seen in how we deal with adversity. Let's show them that we are as responsible as we are resilient.

God bless you and God bless Biloxi.

A.J. Holloway  
Mayor  
June 15, 2008

### Biloxi City Council:

Charles T. Harrison Jr. • Mike Fitzpatrick • Tom Wall  
Edward "Ed" Gemmill • David Fayard

## New season, same advice: Be prepared, prepare now

National weather authorities are predicting a 60 to 70 percent chance of 12 to 16 named storms, including six to nine hurricanes and two to five hurricanes reaching Category 3, 4 or 5.

"Those are a lot of numbers to take in," says Linda Atterberry, the city's Emergency Management coordinator. "An average season has 11 named storms, with six hurricanes, but regardless, the advice is the same for people living in Biloxi and along the Coast: Be prepared, and prepare now."

None of the pre-season forecasts can say when, where or if a storm will make landfall.

With the arrival of a new hurricane season – which began June 1 and runs through Nov. 30 – Atterberry is advising residents to prepare a storm plan for their family and have a storm kit that includes essential items.

The lessons of Hurricanes Camille and Katrina are many, Atterberry said, and two stand out in her mind at the moment: You can't minimize the dangers of any weather threat, and the extent of the threat fades as time passes

"We have new people living and working in the area," Atterberry said. "They don't have a clue because they haven't been here. They see the effects of the storm, but they don't fully realize the level of destruction.

"People need to educate themselves. If people better educate themselves, and pay attention to the media and local authorities, there's no reason we can't handle anything that comes along."

Among the things to remember this hurricane season:

- Highway 67 now provides four-lane traffic from the north end of Cowan-Lorraine Road in Gulfport to U.S. 49 at McHenry.
- Coast Transit continues to offer free emergency transportation in the event of an evacuation. Those interested should call 896-8080 now to register.

Atterberry also worries that some residents may ignore evacuation orders because of the increased cost of fuel.

"That's the wrong kind of thinking," Atterberry said. "What you should realize is that a Category 1 will hurt as bad as a Category 3 or up because if people are not prepared and if they take things too lightly, once the warnings come out they may panic and create problems that are normally reserved for major incidents.

"Our experience has shown that storms can change categories very fast, they can go from a Category 5 to a Category 1 or from a Category 1 to a 3 or 4 real fast.

"Education and preparation are the keys."

## WHAT TO DO AND WHEN TO DO IT

Residents of Biloxi can plan on seeing a constant flow of information regarding weather bulletins and advice this hurricane season, as well as early warnings about storms. Here are key timelines to remember:

### 72 hours before landfall

If Biloxi is in the probability cone, expect to see a recommended evacuation announcement.

### 48 hours before landfall

If Biloxi is in the probability cone, expect to see a mandatory evacuation order for Zone A and low-lying areas. At this point, casino resorts are expected to close.

### 36 hours before landfall

If Biloxi is in the probability cone, expect to see a mandatory evacuation order for Zone B.

### What you can do now

Don't wait until a tropical depression or hurricane is in the Gulf to begin preparing. There are steps you can take now. See the list on Page 6.

### More info

- To see evacuation zones and evacuation routes, see map on Page 2.
- Information also will be available via city e-news, and through a recorded message on the City of Biloxi Storm Info Line, which is at 435-6300.

Hurricane Katrina bearing down on the Gulf Coast

## The story of a lifetime

Cable One and the City of Biloxi will air "Katrina & Biloxi: A Story of Resolve and Resilience," the city's award-winning documentary, on Aug. 29, 2008, the third anniversary of the storm. For details, see Page 4.

# Do you have flood insurance?

Some homeowners may have been required to buy flood insurance when they obtained a mortgage or home-improvement loan.

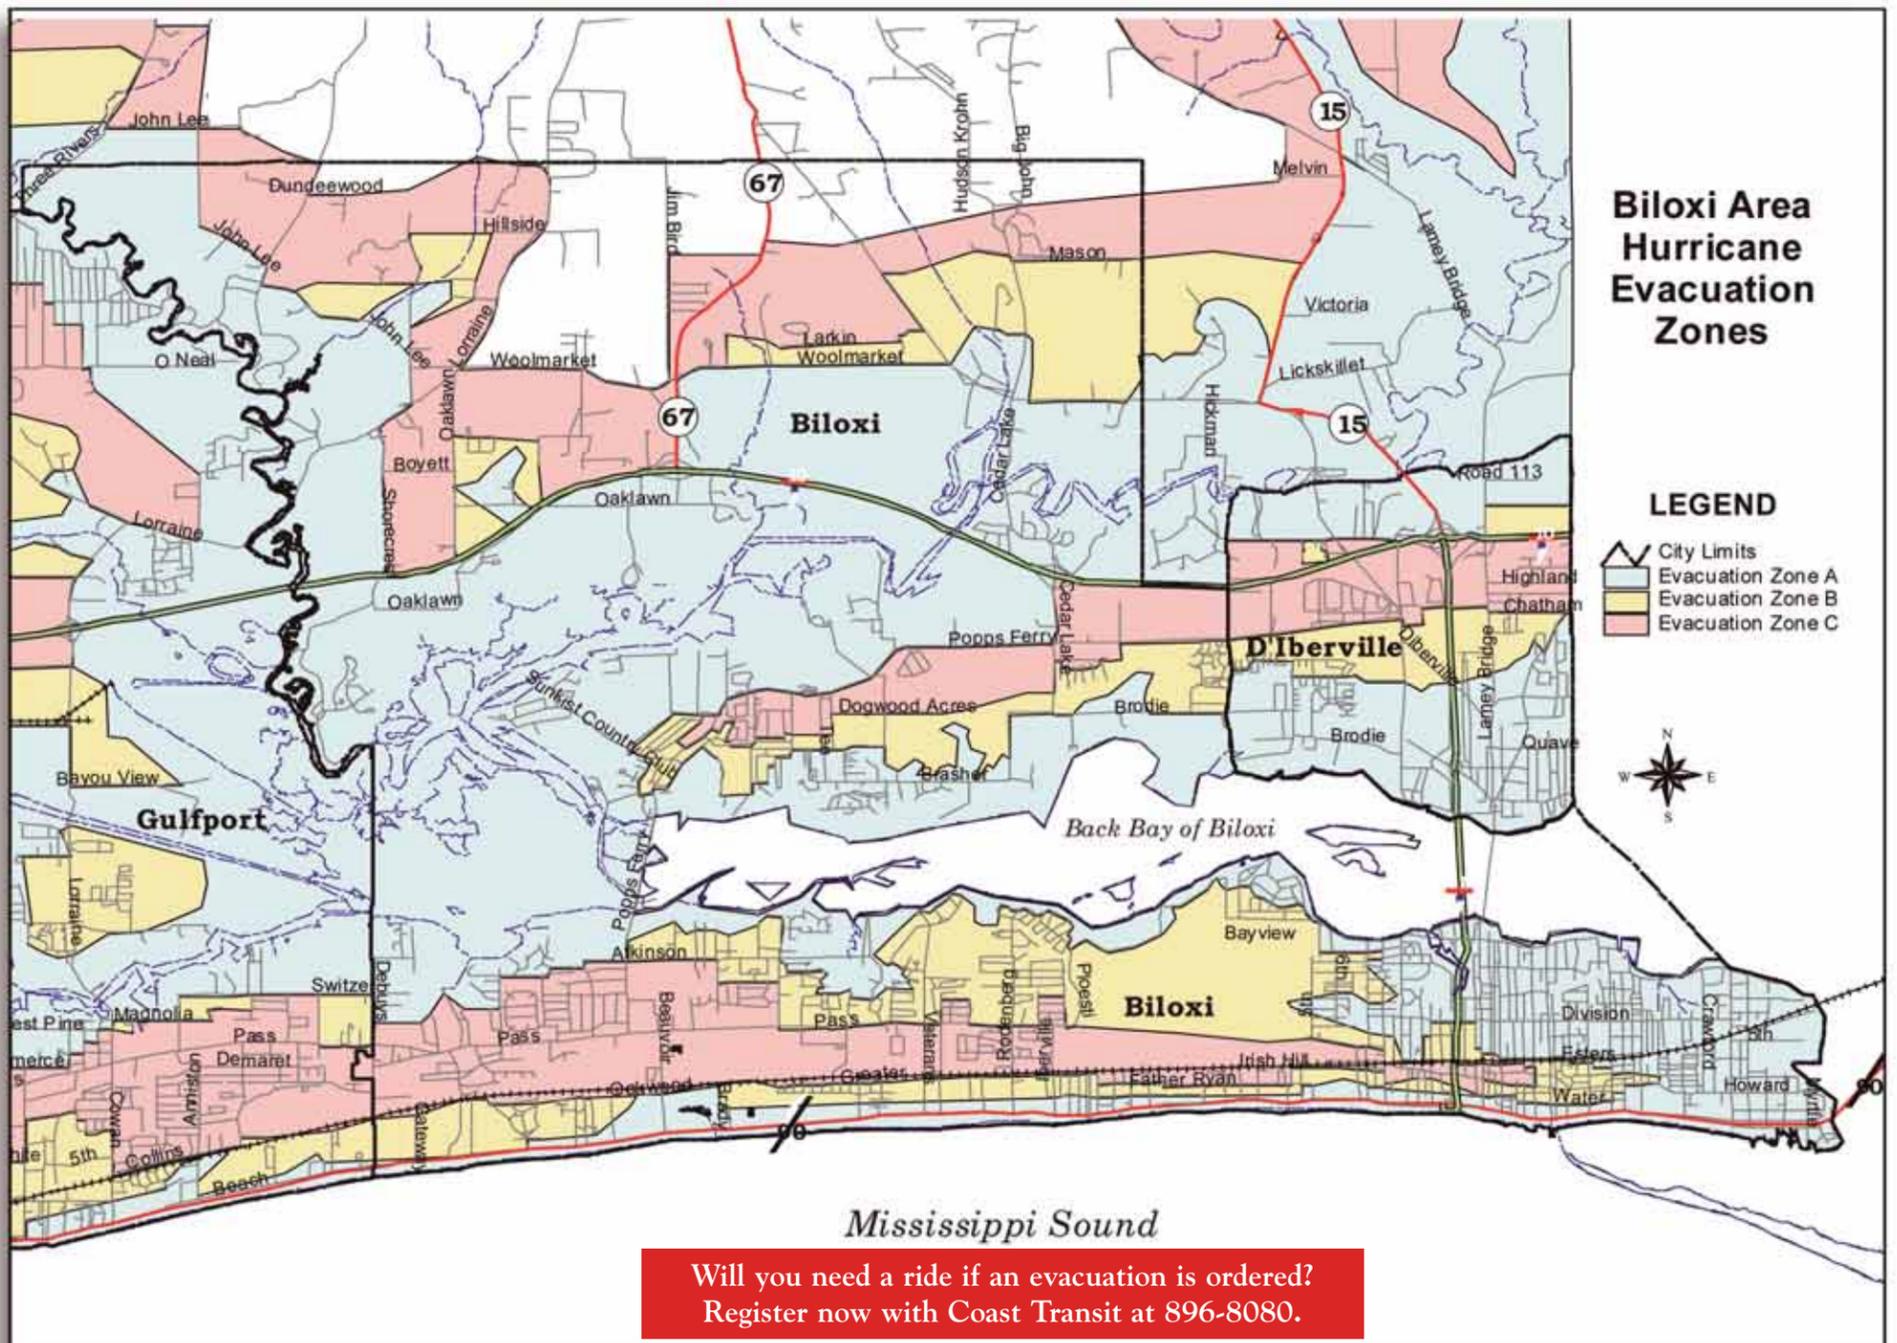

However, in many cases, these policies cover only the structure and not your possessions. You can protect your home and contents through the National Flood Insurance Program, in which the City of Biloxi participates.

Local insurance agents can sell a flood-insurance policy separate from your homeowners or windstorm policy.

These policies are regulated by the federal government. Any agent can sell a policy and all agents must charge the same rates, which are set nationally. Your rates will not change even if you file a claim.

**There is a 30-day waiting period before the policy becomes effective.**

Contact your insurance agent to determine what type of coverage you have.

# Think ahead on evacuations, storm shelters

One of the toughest decisions that residents may have to make on when a storm approaches is whether they should evacuate their property and possessions for either a local shelter or out-of-town accommodations.

Depending on the severity of the storm, that decision can be made for those in low-lying areas: local authorities may order a mandatory evacuation.

In Biloxi, as many as six hurricane shelters can be activated in times of peril, but residents need to be aware of several factors if they are considering seeking refuge in a shelter.

The decision to open a shelter is usually based on the intensity of a storm and where it is expected to make landfall. Local Emergency Management leaders make the decision to open shelters in coordination with the American Red Cross, and the public is notified through

the media. In many cases, elementary schools are used for shelters, which are manned by Red Cross workers and public safety officers.

And the shelter sites can vary for year to year and storm to storm.

“The category of storms and the direction they are coming from are just a couple of the considerations when determining which shelters will be used,” Biloxi Emergency Management coordinator Linda Atterberry says. “Things like tides are also a consideration, so the locations of shelters and when they are activated are made on a case-by-case basis.”

If you think you may seek refuge in a shelter, some points to consider:

- Bring enough food and water for at least the first day. Bring your own blankets and other personal

needs. Cots cannot be guaranteed. No pets, firearms, alcohol or tobacco products are allowed.

- Public transit systems – buses and taxis – will stop operating when sustained winds reach 35 mph.
- If you have an infant, bring an adequate supply of diapers and formula.
- If you or a member of your family is on a special diet, bring the necessary food.
- If you are on prescription medication, try to have a two-week supply of medication.

If you’re thinking about evacuating, be familiar with evacuation routes. Traffic may be delayed by bridges opening to marine traffic. Bridges, by the way, will not open for marine traffic when sustained winds reach 35 mph.

# Bag those leaves and trimmings after yard work

Chances are, you’ve seen it done or even done it yourself: You cut your lawn, rake up the trimmings and pile them near the curb in front of your home. Or, you’ll sweep the trimmings into the street, where you hope they’ll be carried away by the wind.

These two scenarios result in one of the biggest causes of flooding in the city – blocked storm drains. These careless or unthinking actions negate the millions of dollars in improvements that the city is making citywide to drainage systems.

Piling leaves at the curb or sweeping trimmings into the street means that they will eventually find their way into the city’s storm drains. Either bag the leaves for pickup,

take them to a neighborhood dumpster or compost them. A stopped-up storm drain or ditch cannot carry run-off water as it is intended to do. When it rains, that water can flood streets, your property or your neighbor’s property.

It’s actually a violation of city ordinance to dump any material into storm drains, ditches, culverts, streams or waterways. (Sec. 9-1-15, Code of Ordinances, 1992). If you see anyone dumping debris into storm drains, ditches, culverts or streams, please contact the Public Works Department at 435-6271 or online at [sullivan@biloxi.ms.us](mailto:sullivan@biloxi.ms.us), or the Code Enforcement staff in the Community Development Department, 435-6270 or online at [dking@biloxi.ms.us](mailto:dking@biloxi.ms.us).

# Major repairs to flood-zone homes may trigger code issues

Homeowners with significantly damaged property in a flood zone will be required to make sure their homes fully comply with flood regulations before the city can issue a building permit for repairs, according to FEMA regulations.

Community Development Director Jerry Creel said some property owners may find that their homes had been constructed before standards were in place to govern construction in flood zones.

"Those who are looking to repair heavily damaged homes in a flood zone need to be aware of a few things," Creel said. "If the damage amounts to more than 50 percent of the fair market value of the home, it's considered 'substantially damaged' by FEMA. This means that in order for a building permit to be issued, the home must be brought into full compliance with the flood ordinance and FEMA regulations."

A number of homes, particularly older ones in east Biloxi, were built decades ago, before flood-zone regulations existed.

"They had been grandfathered in, but those grandfather clauses will not carry over into major new construction," Creel said. "One of the biggest issues that property owners will face is that regulations now call for structures in flood zones to be elevated four foot above the base flood elevation, which could range from 12 to 17 feet above the mean sea level, depending on the location of the property."

The city cannot allow property owners to re-build in a manner that violates flood plain management regulations, Creel said, noting that the city has waived permit fees for property owners making repairs or rebuilding their homes.

"Failure to comply with the codes will result in significantly higher flood insurance rates for everyone,"

Creel said, "and, frankly, insurance rates will end up increasing for all property owners."

Biloxi residents have seen flood insurance rates drop by 15 percent in the past several years, thanks to the city's enforcement of flood-zone regulations and its continuing efforts to educate the public about how to minimize the threat of storms and flooding.

You can see an online map showing flood zones in Biloxi at [biloxi.ms.us](http://biloxi.ms.us). You may also contact floodplain manager Rick Stickler at [rstickler@biloxi.ms.us](mailto:rstickler@biloxi.ms.us) or at 435-6270.

The flood zone map is also available at the Community Development Department on Dr. Martin Luther King Jr. Boulevard or at the Woolmarket Fire Station on Woolmarket Road.

## Be sure to get a building permit before construction

When you or a licensed contractor make repairs or alterations to your property, those repairs should be in compliance with established building codes. This ensures that work is up to code and will be able to withstand most weather conditions.

To make sure that your plans are within code, a building permit must be obtained from the City of Biloxi Building Division before you build, alter, regrade or fill on your property.

New buildings in the flood plain must be protected from flood damage. Biloxi's building code requires that new buildings must be elevated four foot above the base or 100-year flood level. (See the enclosed map for a view of the 100-year floodplain.)

The code also requires all additions and "substantial" improvements or repairs from damage to a building be treated as new construction. A substantial improvement or repair is one in which the value of an addition, alteration, repair or reconstruction projects exceeds 50 percent of the total value of the existing building.

Before you begin a project, contact the Building Division at 435-6270 or online at [building@biloxi.ms.us](mailto:building@biloxi.ms.us). Qualified staff can help make sure that your project complies with building codes.

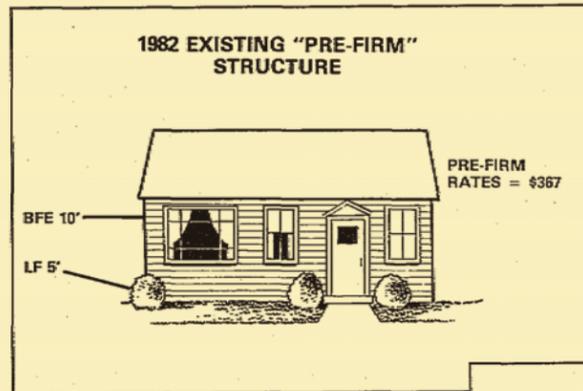

### Contractors must have city license

Property owners are warned to beware of transient contractors who typically set up shop in the wake of disasters such as Hurricane Katrina.

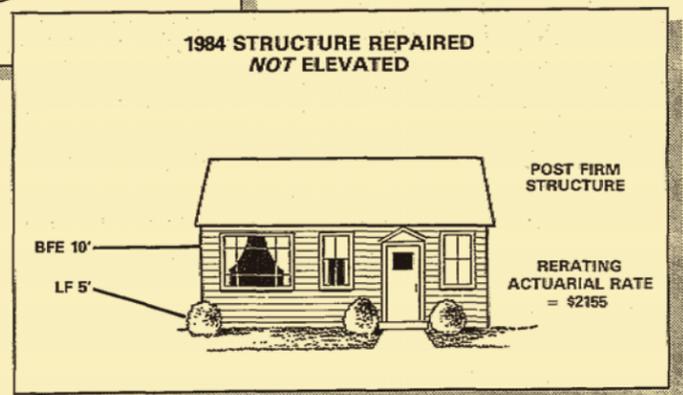

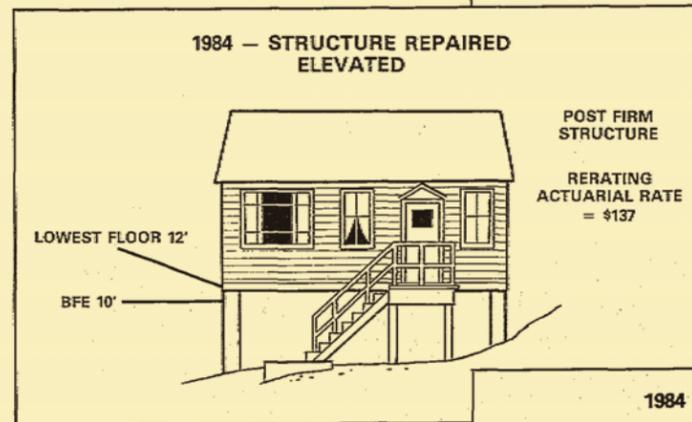

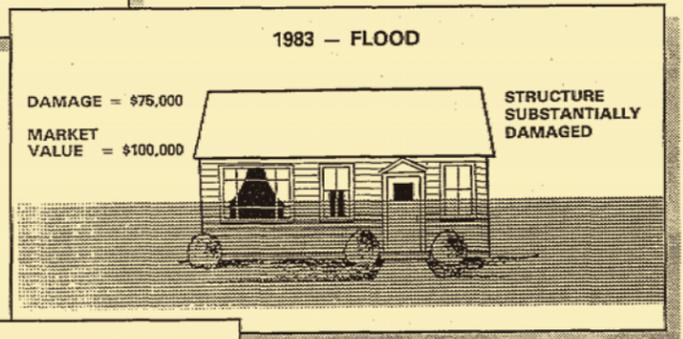

Ask to see the person's City of Biloxi license card, which is required to do business in this city. Do not pay any money in advance. Do not sign any contracts. And do not pay any money until the work has been inspected and approved by a city inspector.

If you have any questions or concerns, call the Community Development Department at 435-6280.

## How elevations impact your insurance rates

This 1980s FEMA graphic, which was originally distributed to Biloxi residents in December, 2005 illustrates the implications that homeowners face when making repairs to homes that pre-date the Flood Insurance Rate Map. In short, if your home is in a flood-prone area of the city and if your repairs did not include bringing the structure into compliance with current flood elevations, you face significant increases in the cost of your flood insurance. You can see the flood-prone areas of the city in the map on Pages 6 and 7 of this mailout. A larger version can be viewed online at [biloxi.ms.us](http://biloxi.ms.us) or at any city facility.

## You can take steps now to protect your property against flooding

There are some steps that you can take now to prepare your property against flooding.

One option may be "retrofitting," which is altering your home to eliminate or reduce flood damage.

### A few things to consider:

- Elevate your building so that flood waters do not enter or reach any susceptible portions.
- Construct barriers out of fill or concrete between your building and flood waters.
- "Dry flood proof" your non-residential building, which entails making walls and flooring watertight so water cannot enter.
- "Wet flood proof" your non-residential building, which entails modifying the structure and relocating

contents to lessen the damage caused by any flood waters that enter your structure.

- Sandbagging is a short-term measure that can also be helpful.

The City of Biloxi is home to many reputable, licensed building contractors who are qualified to make repairs for you. However, after each storm, a number of transient contractors sets up temporary shop in our community. **Before signing any contract or paying any money for repair work, you should ask to see the person's City of Biloxi license.**

If you have any doubts or questions, contact the Building Division at 435-6270 or online at [building@biloxi.ms.us](mailto:building@biloxi.ms.us) to ensure that this individual is licensed to operate in the City of Biloxi.

## Need More Info?

- To read FEMA's answers to frequently asked questions about repairing significantly damaged properties in flood zones, visit [biloxi.ms.us](http://biloxi.ms.us).
- To read FEMA's "Homebuilder's Guide to Coastal Construction," which provides technical guidance and recommendations concerning the construction of coastal residential, visit [biloxi.ms.us](http://biloxi.ms.us).
- Those with other questions can call the Community Development Department at 435-6280 or e-mail [building@biloxi.ms.us](mailto:building@biloxi.ms.us).

# Take a free ride

## Coast Transit urges needy to register now for emergency evacuation transportation

Coast Transit Authority is reminding residents in need of emergency storm-evacuation transportation to sign up now.

"We strongly advise that if at all possible you make your own emergency evacuation plans and evacuate the area when instructed to do so by the county EMA," said CTA Director Kevin Coggin. "It is always best to have your own plans in place, but we are available to provide assistance to the citizens of Harrison County if they need it."

CTA is managing the evacuation transportation program for Harrison County and will be providing transportation assistance for out-of-town evacuations, to local shelters of last resort, and shelters for pets and their owners.

Residents are advised to sign up now if there is a chance

they will need evacuation transportation. You should register with Coast Transit Authority immediately to make sure you are on the list to receive assistance.

The number to call is 896-8080.

Spanish speaking operators are available. CTA also needs to know as soon as possible of any special medical or other needs to those being transported.

Transportation to a pet shelter will be provided for dogs, cats, and birds only. The pets must be in carriers that can be lifted and loaded by the pet owner. There will be no assistance for loading and unloading pets.

The Harrison County Emergency Management Agency and the Humane Society of South Mississippi are providing

a pet shelter, but the pet owners must accompany the pet during transportation and stay at the same shelter with their pets.

Only two carry-on items per person will be allowed on the buses, either two bags or one bag and one pet carrier. There will be no exceptions.

"It is critical that you go ahead now and make preparations to leave if an evacuation is called," Coggin said. "You should prepare the items you must have to leave in orderly fashion so that you can leave quickly and you should have pet carriers in hand ready to use if you intend to take a pet. And, you should register immediately if you think you could require our assistance."

## You can get free how-to info on preparation and construction

Need more information about flood preparation and construction? The city has assembled a wealth of free how-to booklets about steps that you can take to minimize damage from storms and flooding.

The books are available at these locations:

- Community Development Department, Dr. Martin Luther King Jr. Municipal Building, 435-6280.
  - City Hall lobby, Lameuse Street.
  - Donal Snyder Sr. Community Center, Pass Road
  - Biloxi public libraries (Lameuse Street, Popp's Ferry Road, Division Street and Pass Road).
  - Woolmarket Fire Station, 8479 Woolmarket Road
- You can also contact the City's Building or Code Enforcement divisions online at [biloxi.ms.us/communitydevelopment](http://biloxi.ms.us/communitydevelopment).

For detailed info on building permits and construction requirements, contact the Building and Code Enforcement divisions at the Community Development Department, 435-6270 or online at [building@biloxi.ms.us](mailto:building@biloxi.ms.us). Those planning work in a flood-prone area should contact floodplain manager Rick Stickler at [rstickler@biloxi.ms.us](mailto:rstickler@biloxi.ms.us) or at 435-6270.

You can obtain a number of helpful emergency preparedness brochures online at FEMA's website ([www.fema.gov](http://www.fema.gov)) or from the National Hurricane Center ([www.noaa.nhc.gov](http://www.noaa.nhc.gov)).

## Storm, disaster info can be kid stuff, thanks to website

It's never too soon to begin the education process about storms and the damage they can cause, and a host of educational activities especially for children are now available online.

The Flood and Storm section of Biloxi's web site (<http://biloxi.ms.us>) includes a direct link to

FEMA for Kids, which features Herman, "the spokescrab" and kid-style information on how to be prepared for disasters and how you can prevent disaster damage.

Parents and teachers will find a number of family or classroom activities for groups.

To see the FEMA for Kids site, visit <http://biloxi.ms.us/floodstorm> and click on For Kids at the top right.

President Bush consoles east Biloxi residents in this image from the city-commissioned documentary 'Katrina and Biloxi.'

## City, Cable One to air 'Katrina & Biloxi'

The City of Biloxi and Cable One will air "Katrina & Biloxi: A Story of Resolve and Resilience" on Aug. 29, the third anniversary of the storm, to help educate residents about the dangers of storms and flooding.

Cable One will air the program Coastwide at 8:30 a.m., 8:30 p.m. and 10:30 p.m. on Cable 13.

The 50-minute documentary includes video of the city before, during and after the storm and uses interviews with Biloxi leaders, residents and volunteers to tell the story of Biloxi's encounter with Katrina, the worst natural disaster to ever strike the United States.

"This is a great story," Mayor A.J. Holloway said of the documentary, "and I hope Biloxi residents and all residents of the Gulf Coast tune in so they'll be reminded of just how great our community is, and how far we've come. The biggest thing people, though, is to heed the advice you'll hear in this presentation: take storms seriously and prepare accordingly."

The 50-minute documentary is part of a DVD produced by the city and Tom Nebel Productions, a firm that accompanied the Atlanta Fire Department to Biloxi in the aftermath of the storm. The DVD also comes with a 52-page full-color photo album that was produced by the city and The Ad Group, a Biloxi advertising agency.

The \$85,000 investment has grossed more than \$300,000 for the city, with sales in 46 of the 50 states and around the globe. Online discounts are available at [biloxi.ms.us](http://biloxi.ms.us).

The "Katrina & Biloxi" effort has won awards from the American Advertising Federation and the Public Relations Association of Mississippi.

## Federal agencies encouraging residents to use direct deposit

In those critical days after Hurricane Katrina, the U.S. Treasury Department worked with the Social Security Administration to get displaced Social Security and other federal benefit checks to recipients, as quickly as possible. But those who already were using direct deposit had immediate access to their funds from virtually anywhere, thanks to ATMs and financial institution networks.

That's why the Treasury and the Federal Reserve Banks – through **Go Direct** – are urging Social Security check

recipients who live along the Gulf Coast to switch to direct deposit. The recommendation, offered in light of last year's devastating hurricanes, is aimed at ensuring citizens receive their federal benefits without disruption.

**Go Direct** makes it easy to sign up for direct deposit. People can sign up by calling the toll-free **Go Direct** helpline at (800) 333-1795 or by visiting [www.GoDirect.org](http://www.GoDirect.org) to sign up online. To learn more about **Go Direct**, visit [www.GoDirect.org](http://www.GoDirect.org).

# We deliver.

Anybody can have a site on the World Wide Web, but there's only one that delivers news about the City of Biloxi directly to you. It's biloxi.ms.us.

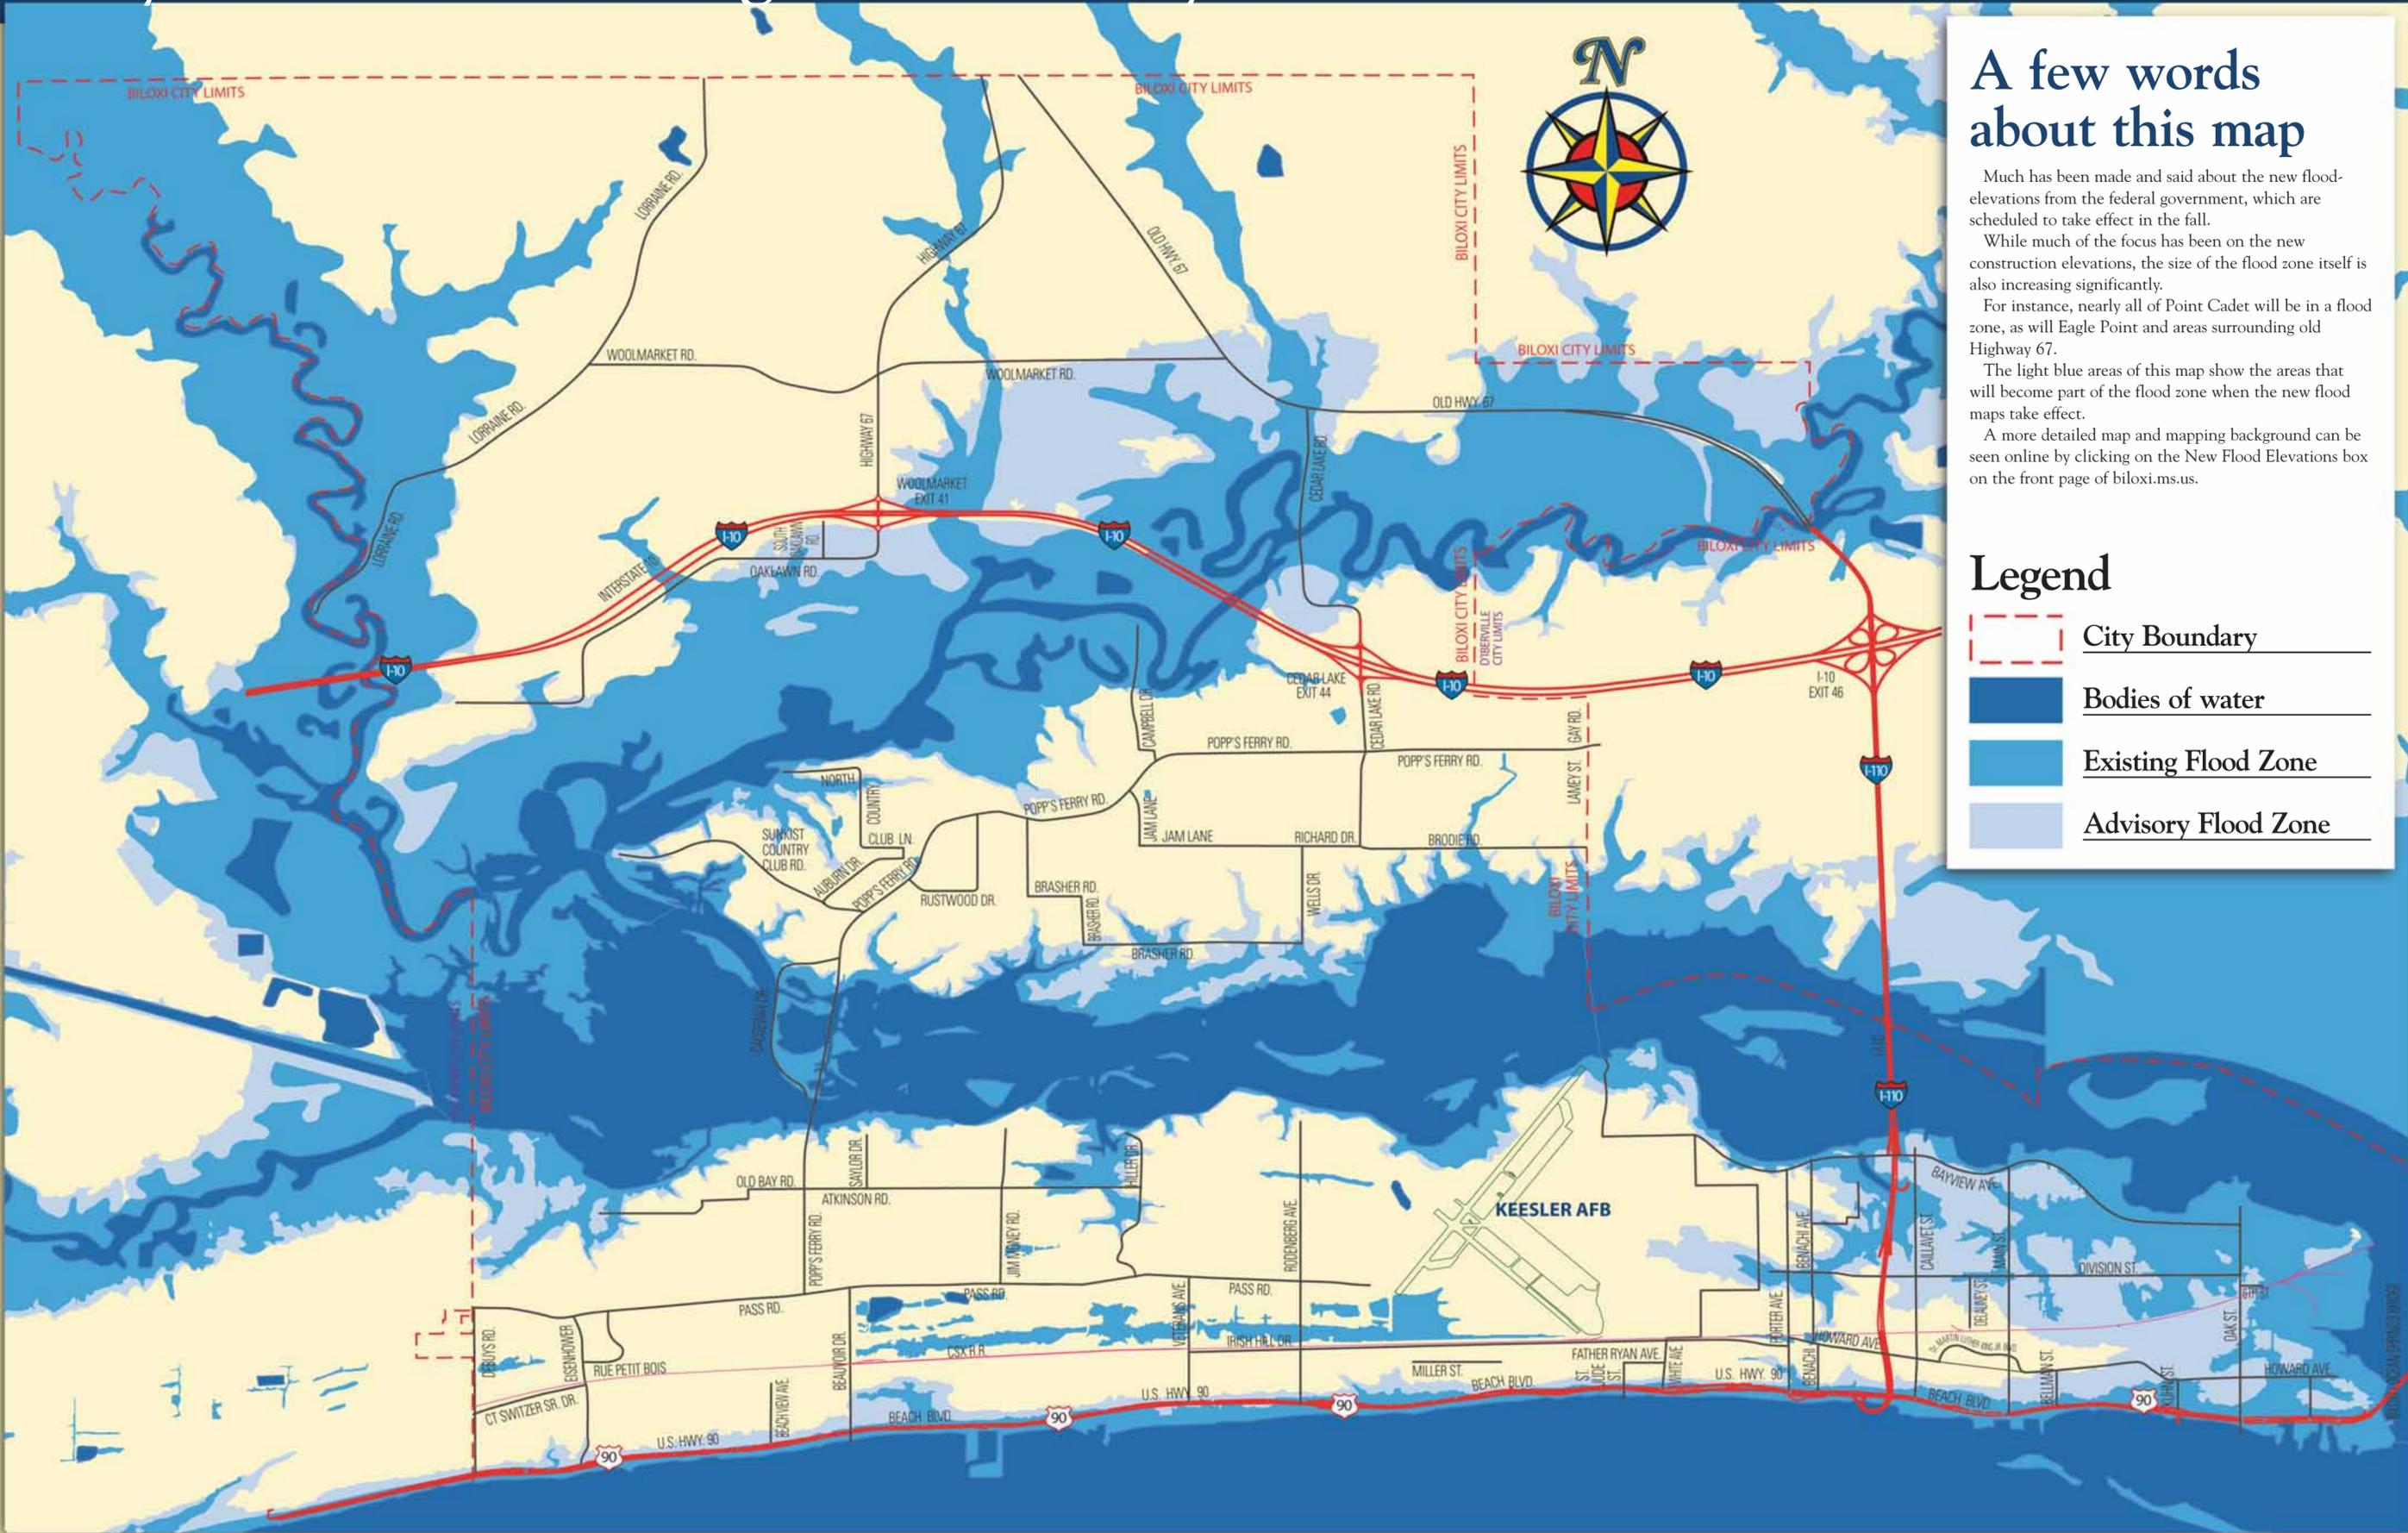

Don't wait until a storm threatens to get vital information about your community. Get it now. Delivered directly to you and for free. In the 34 months since Katrina, the city has e-mailed more than two million storm-recovery updates to Biloxians and an audience around the globe. Information on a host of local issues and projects, as well as details about special meetings and events of community interest. These e-mails and the city website are your No. 1 source of information on all things Biloxi.

Visit the city's web site at biloxi.ms.us and click on "Are you in the loop?" on the left side of the screen. It takes only a few seconds to sign up, and you'll be in the loop – and in the know.

# City of Biloxi - Existing and Advisory Flood Zones

## A few words about this map

Much has been made and said about the new flood-elevations from the federal government, which are scheduled to take effect in the fall. While much of the focus has been on the new construction elevations, the size of the flood zone itself is also increasing significantly. For instance, nearly all of Point Cadet will be in a flood zone, as will Eagle Point and areas surrounding old Highway 67. The light blue areas of this map show the areas that will become part of the flood zone when the new flood maps take effect. A more detailed map and mapping background can be seen online by clicking on the New Flood Elevations box on the front page of biloxi.ms.us.

# Cảnh báo sớm về bão năm nay

Năm 2005 Biloxi đã chuẩn bị đối phó bão lụt kỹ hơn bao giờ hết trong lịch sử của thành phố, nhưng chính thành phố bị bão tàn phá này lại phải đương đầu với một loạt vấn đề mới trong mùa bão này mà chính xác là cư dân nhất thiết phải có kế hoạch đối phó bão của từng cá nhân và chuẩn bị sẵn các trang bị dự phòng bão.

Thị trưởng A.J. Holloway nói rằng đối với hơn 2,000 cư dân hiện đang sinh sống tạm thời trong trailers và lều trại và hàng ngàn tình nguyện viên thành phố, nắm được nguồn thông tin về bão lụt kịp thời sẽ vô cùng cần thiết trong mùa bão này. Ngoài ra, Holloway nói: “Cư dân nên dự đoán có những đề nghị sớm hơn thường lệ về việc di tản khỏi các khu vực đất thấp.”

“Chúng tôi đã nhắc đi nhắc lại với giới truyền thông quốc gia rằng cơn bão Katrina không phải là cuộc thử sức đầu tiên của chúng ta, mà chúng ta hy vọng nó sẽ chỉ là cuộc thử sức lớn nhất mà chúng ta từng thấy.” Holloway vừa qua đã nói với một nhóm gồm hơn hai chục lãnh đạo các ban ngành chủ chốt của thành phố và các trưởng phòng cấp trung trong các cuộc họp chuẩn bị đối phó bão. “Tất cả chúng ta đều biết nó sẽ chưa phải là cuộc thử sức cuối cùng. Tôi tự hào về toàn bộ công việc mà quý vị và toàn thể cư dân Biloxi đã làm và sẽ tiếp tục làm. Giờ đây, tôi đề nghị tất cả mọi người chuẩn bị lại.”

Năm nay, điều quan trọng nhất là, Holloway nói, phải thông báo việc di tản kịp thời cho công chúng biết.

“Nếu chúng ta ở trong vùng dự báo có bão”, ông nói, “người dân phải dự đoán sẽ có một thông báo di tản trong vòng 72 giờ, một cuộc di tản bắt buộc đối với Vùng A và các vùng thấp trong vòng 48 giờ, và một cuộc di tản bắt buộc đối với Vùng B trong vòng 36 giờ.”

Khi có lệnh di tản, cư dân sinh sống tạm thời trong các trailers không được đưa xe trên đường. Holloway nói: “Do không sử dụng cầu Biloxi-Ocean Springs trong mùa bão năm nay, chúng ta bị giới hạn ở một số tuyến đường di tản, và chúng ta không muốn bị những trailers này gây tắc nghẽn giao thông. Các trailers này phải ở đúng vị trí quy định.”

Biloxi sẽ mở đến năm trung tâm tạm cư, nhưng số lượng và địa điểm của các trung tâm này sẽ tùy thuộc vào chiều hướng và cường độ của cơn bão. Phương tiện vận chuyển công cộng sẽ được thông báo cho những người không có phương tiện để đi đến các trung tâm tạm cư ngoài thành phố. Ngoài ra, phải thông báo kế hoạch sử dụng đường tạm xe lưu thông hai chiều ở các trục đường chính sớm hơn thường lệ.

“Người dân không cần phải nhắc đến lần thứ hai mới di tản” Holloway tuyên bố, “nhưng chủ yếu là lệnh di tản phải phát sớm hơn, xét vì chúng ta phải đối phó nhiều yếu tố.”

Holloway và Giám đốc Quản lý David Staehling nói rằng thành phố đã chuẩn bị rất kỹ hơn bao giờ hết lúc Katrina ập vào ngày 29 tháng 8, 2005.

“Trước khi bão vào chúng tôi đã ký hợp đồng tạm thời dọn dẹp vật liệu đổ nát trước bão, về mặt này chúng ta đã giải quyết xong, và, dĩ nhiên, chúng ta cũng được hưởng chế độ bảo hiểm gián đoạn kinh doanh 10 triệu đô la” Staehling nói. “Năm nay chúng ta phải cẩn thận sắp xếp ổn thỏa lại các việc này, mặc dù chúng ta có thể gặp khó khăn trong việc xin thêm \$92,000 đô la cho bảo hiểm gián đoạn kinh doanh cho năm nay.”

Trong các cuộc họp chuẩn bị đối phó bão của thành phố mới đây, nhân viên thành phố đã xem xét kế hoạch để sắp xếp các loại xe cấp cứu và các thiết bị nặng vào các khu vực an toàn hơn, bố trí nhiên liệu và các nhu yếu phẩm khác cho sau bão, cập nhật thông tin liên lạc cho các nhân viên chủ chốt. Việc chỉ sử dụng hai trong số ba cây cầu hiện có trên bán đảo Biloxi cho tuyến đường di tản cũng được thảo luận.

# Advertencias a venir anterior esta estación

Biloxi fue preparado mejor para las tormentas y el flooding en 2005 que en cualquier otra hora en la historia de la ciudad, pero la ciudad tormenta-devastada hace frente a un anfitrión de nuevas ediciones esta estación del huracán, que los medios él son vital importantes para que los residentes tengan sus kits personales del plan y del huracán de la tormenta en lugar.

Alcalde A.J. Holloway dice que con más de 2.000 acoplados y campistas temporalmente contener residentes y a millares de voluntarios en ciudad, teniendo un flujo oportuno de la información de la tormenta y de la inundación será vital esta estación del huracán. Además, Holloway dicho, residentes debe esperar ver recomendaciones temprano-que-generalmente con respecto a las evacuaciones de areas de bajo-mentira.

“Dijimos a medios nacionales en varias ocasiones que Katrina no fuera nuestro primer rodeo, pero esperábamos que sería el más grande que veríamos siempre,” Holloway dijo recientemente a grupo de dos jefes de docena servicios dominantes de la ciudad y de encargados mid-level en uno de una serie de reuniones de la preparación de la tormenta. “Todos sabemos que no será nuestro dura, aunque. Soy orgulloso de todo el trabajo que usted y todos los residentes de Biloxi han hecho y continúan para hacer. Ahora, le estoy diciendo conseguir listo otra vez.”

“La cosa más importante esta estación, Holloway dicho, proporcionará lainformación oportuna de la evacuación al público.

“Si estamos en el cono de la probabilidad,” él dijo, “gente debe esperar ver un aviso recomendado de la evacuación 72 horas hacia fuera, una evacuación obligatoria para la zona A y las áreas de bajo-mentira 48 horas hacia fuera, y una evacuación obligatoria para la zona B 36 horas hacia fuera.”

Si se da una orden de la evacuación, no se permitirá ningunos acoplados temporales en los caminos. Holloway Dicho: “con el Biloxi-Oce’ano suelta el puente hacia fuera para esta estación del huracán, somos limitados en el número de las rutas de la evacuación, y no deseamos estos acoplados que soportan tráfico. Seguirán siendo donde están.”

El tanto como cinco abrigos podrían abrirse en Biloxi, solamente número y localización de esos abrigos dependerían de la trayectoria y de la fuerza proyectadas de la tormenta. El transporte público sería anunciado para ésos sin los medios del recorrido a los abrigos de la hacia fuera-de-ciudad. Además, cualquier plan del contraflow

para el tráfico en los caminos importantes sería anterior anunciado que generalmente.

“La gente no tendrá que ser dicha dos veces para evacuar,” Holloway declarado.

“Solamente él es vital que sale la palabra anterior, en vista de los muchos factores que hacemos frente.” Holloway y el director de la administración David Staehling dijeron que la ciudad fue preparada mejor que en cualquier otro momento en que Katrina pulsó de agosto el 29, 2005.

“Teníamos nuestro contrato temporal del retiro de la ruina en lugar antes de la tormenta, golpeamos el funcionamiento de tierra en eso frente, y, por supuesto, teníamos la póliza de seguro de la negocio-interrupcio'n \$10 millones en efecto, también,” Staehling dicho. “Miramos para tener todas esas cosas en lugar otra vez este año, aunque podemos tener dificultad el conseguir la política de la interrupción del negocio para otros \$92.000 de este año.”

Durante la serie reciente de la ciudad de reuniones de la preparación de la tormenta, los planes repasados personal de la ciudad para los vehículos de la emergencia del estacionamiento y el equipo pesado en áreas más seguras, arreglando para el combustible de la poste-tormenta y otras fuentes, y poniendo al día la información del contacto para los personales claves. Las rutas de la evacuación que usaban solamente dos de tres puentes disponibles en la península de Biloxi también fueron discutidas.

## The color of construction

City simplifies permits, adds splash of color to better identify work

Identifying the types of construction going on in Biloxi is simpler these days – for contractors, property owners and city inspectors, as well as citizens interested in construction in their neighborhoods. Tracking construction is a particularly vital concern in flood zones.

The city’s Community Development Department is now using color-coded permits that clearly illustrate the type of permit granted for construction work, and the new system has reduced what once may have required a contractor to obtain five separate permits to having everything all on one permit.

It’s all part of the city’s continuing efforts to help streamline and simplify the process, and to amplify that different types of work may be required to meet stricter standards.

For instance, work in an area susceptible to flooding, known as a special flood hazard area, must comply with FEMA regulations and the city’s Flood Damage Prevention Ordinance. Those planning any work in a flood-prone area should contact floodplain manager Scott Underwood at [sunderwood@biloxi.ms.us](mailto:sunderwood@biloxi.ms.us) or at 435-6280.

Previously, permits were a standard beige color, and contractors may have been required to obtain separate permits for building, electrical, plumbing, gas and mechanical (heating, ventilation and air conditioning).

“Now,” says Jerry Creel, the city’s Community Development director, “when someone passes by a project, they won’t be seeing a collection of non-descript permits. Instead, they’ll see that color-coded permit, and they’ll know that if it’s blue, then the project is in a flood zone, which means that things like elevation will be more serious than on the typical construction job. These color-coded permits are designed to help call attention to those issues.”

The colors:

- Lime green permit is the basic permit for work where there are no special conditions or enhanced requirements.
- Blue permit is for properties or structures located in a special flood hazard area.
- Beige signifies the “Architectural/Historical Review District,” which means that the proposed project has been reviewed and approved by the Architectural and Historical Review Committee.
- Red is a Demolition Permit.
- Orange is for “Moving” a structure.
- Purple is for “grading” or “filling” a site.

## Những điều bạn cần biết

Cư dân Biloxi có thể lập kế hoạch tiếp tục xem thấy các nguồn thông tin thông báo thời tiết và khuyến nhủ về mùa bão năm nay.

Trong các kế hoạch xem duyệt lại năm nay, gồm có kế hoạch cấp báo sớm.
