MARCH IS

National Nutrition Month

Let the USDA's Food Pyramid be your guide for healthy food choices each day. Recommendations include making half your grains whole grains; having a variety of fruits and veggies; eating low-fat or fat-free milk products; choosing more lean meats, fish legumes, nuts and seeds for protein; and getting most of your fats from vegetable oils, fish and nuts. The pyramid also includes an exercise component to remind everyone to stay active and fit.

You can visit www.mypyramid.gov for the latest advice on smart eating and exercise. This government Web site offers you an individualized daily eating plan with lots of nutrition tips and recipes. There's also a section just for kids!
