Code enforcement cases resolved	219

Last week in Community Development, the City Council voted unanimously to approve phase two of the Rock Creek single family residential subdivision on Lorraine Road. Rock Creek was designed to include a total of 147 lots. The infrastructure has been installed for phase two, and home construction can begin as soon as the final plat is recorded.

Also last week the Architectural-Historical Review Commission approved applications for two structures along the beachfront. The first application, filed by Daniel and Sally Finch is for the structure located at 1016 Beach Blvd., which is the former Alessi home. Architect Mike LeBatard presented the design which will include adding porches and columns to the entire front façade, and a courtyard to the west side. The second application, filed by Dr. Azad Kabir for the structure located at 1120 Beach Blvd, involves adding a two story addition to the rear of the existing structure.

At the Wednesday meeting, the Development Review Committee signed off on an application for a new multi-tenant commercial strip center to be located at the southeast corner of Popp's Ferry Road and Tee Street. Building Construction plans have been submitted and are currently under review.

Building permits were issued last week for final remodeling of the White Pillars, which is scheduled to reopen later this year. Permits were also issued for three new single family houses.

Lastly, a certificate of occupancy was issued on Friday to Shady's Restaurant on Pass Road. This certificate allows the owner to reopen the restaurant in the same capacity as it operated before closing earlier this year.
