Early in life Mr. Moran was an accomplished Master Boat Builder, but after a critical life-threatening illness he was forced to leave the boat building business. He then picked up a paint brush, a camera and often times a notepad with pencil and left behind a plethora of beautiful works of art. This treasure trove of paintings, drawings and photography capture his love and knowledge of maritime life along the Mississippi Gulf Coast. Come view the world through the eyes and art of a Coast legend whose art is world renown.

Learn the story of how a boat builder became a masterful artist at our featured **Meet & Greet** with the family of Joe Moran for an informal conversation about the man and the artist.
