

PUT A THERMOMETER ON **FREEZE** WINTER FIRES

Home fires occur more in winter than in any other season. As you stay cozy and warm this winter season, **be fire smart!**

Half of all home heating fires occur in the months of

Keep portable generators outside, away from windows, and **as far away as possible from your house.**

Install and test carbon monoxide alarms at least **once a month.**

Have a qualified professional clean and inspect your chimney and vents **every year.**

Heating equipment is involved in **1** in every **6** reported **home fires** and **1** in every **5** home fire deaths.

Store cooled ashes in a tightly covered metal container, and keep it outside at least **10** feet from your home and any nearby buildings.

Keep anything that can burn at least

3 feet from any heat **source** like fireplaces, wood stoves, radiators, or space heaters.

Plug only **1** **heat-producing appliance** (such as a space heater) into an electrical outlet at a time.
