

Medal of Valor - See list.

On August 29, 2005, several officers became trapped at a residence in Eagle Point due to hurricane force winds and flood waters. After getting themselves to safety, the officers decided to return to the flooded area and made a successful attempt to rescue four special needs children who were trapped in the area. These officers accomplished this rescue without regard to their own safety and well-being. Without intervention these children would have surely perished. The actions of these officers brought great credit upon themselves and the Biloxi Police Department, and are therefore being awarded the Medal of Valor for exposing themselves to harm in an effort to save the life of another.
